

Use this table to get extra practice in your multiplications. See if you can finish in 5 minutes. Then when you get good at that, take a minute off at a time until you get down to two minutes.  
Hint: always fill in those that you know really well, first- like your 1's.

X	1	2	3	4	5	6	7	8	9	10	11	12
